**KGB ELECTRICAL  
CAPABILITY  
STATEMENT**

# Cert Compliance

KGB Electrical support the industry in the Hunter, Upper Hunter, Port Stephens, Lake Macquarie, and Central Coast areas.

We continue to grow and expand with new technologies as evidence of our ongoing commitment to the industry.

KGB Electrical under the ownership of Gregory Brown has evolved into an electrical powerhouse, covering the areas of Newcastle, Port Stephens, Upper Hunter, and Central Coast.

Our commitment to excellence in commercial, industrial, and domestic electrical has solidified KGB Electrical as a leader.

Our core mission revolves around delivering professional quality and reliable services 24/7.

We have built strong relationships with Real Estates, Health Care Facilities, Educational Facilities and Campuses, Retail Industries, Building/Construction Sectors and Local Councils.

Through proven systems and cutting-edge technology, KGB Electrical ensure a highly responsible and cost-effective service.

Our innovative approach couple with ongoing technology in the electrical sector positions us as a leader in our field and in our areas.

## Expertise

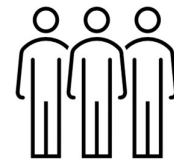

### Quality Control:

KGB Electrical systems are designed to promote best practices, information reliability and communication, both internally and with the client.

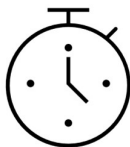

### Professional Monitoring:

From the first call to the completion of the work, our performance monitors focus of two key sets of protocols: Service standard, reporting and warranties. These combined protocols, ensure a timeliness of response and effective communication and a promise to deliver a professional product that is warrantied for the period of 12 months. Our follow up to all our clients sets us apart as a leader in our industry.

### Teamwork:

Through ongoing training and certification programs, our highly skilled electricians' possess the highest degree of accreditation from Cert III in Electrotechnology.

### Time Management:

Through inspection, effective communication and resource management, enabling KGB Electrical to deliver any project on time, within the time frames communicated to our client.

### Estimate/Quote/Invoice:

Details reports contain digital images, assessment of site, works/materials/labour.

## *Corporate Governance*

**KGB Electrical is a strong advocate of Corporate Governance. We have set in place policies and procedures to ensure that the company is not only delivering a high standard of work in a safe environment but also providing diversification within the workplace.**

Through our internal and external audit systems, we are able to monitor and control the work product that is delivered to the client within set KPIs. KGB Electrical has many corporate policies and procedures set in place to align with our vision of Corporate Governance:

- Conduct Police Checks
- Hold Working with Childrens Checks
- Workcover Insurance, Public Liability and Vehicle Insurance
- Safe work method statements
- SDS
- Privacy Act
- Insurance Code of Practice
- Gender Equality
- Diversity Policy
- Process for performance evaluations
- Code of Conduct
- Compliance Procedure
- OHS/WHS Policies and Procedures
- Risk Management
